1	Letter no. 5555 dt 1-9-1936 from the Dir. S.O.F. reporting about the necessity to increase the foreshortening capacity at the Mysore Factory, and soliciting early orders in the matter.
	The T.C. recently brought to the notice of Govt. that he is being handicapped seriously for want of sufficient stocks of Sandal oil and on account of the delay in the shipments of oil. The stoppage of distillation at Kamany has also contributed to the depletion of stocks and it is considered urgently necessary to increase the output of oil; for this purpose it is proposed to instal 4 more stills at the Mysore Factory and the entire expenditure which Commences is expected to amount to Rs. 36,500/-. Whether this may be sanctioned is for orders. An additional grant of Rs. 36,500 would be necessary if the proposal of the Dir. is agreed. H.C. Dec. has to be consulted. CG.
	6.9.36
	2 The work seems to be urgent for the reasons given in the penultimate para of the D.O. letter. Detailed estimates for items (1) and (2) amounting to Rs 9500 have been

NOTE—Contn. Sheet.

3 There was a preliminary discussion on this question at the Sandal Oil Board and the Director present have full information in support of his recommendation. He particularly wanted all the contracts for the renewal to be executed. No mention is made of it here. It is not clear whether the contracts for the renewal are necessary or not. If they are necessary, the [illegible] is incurred.

4 At the meeting the extension of the Shillong room was not referred to. Whether this is absolutely necessary can be made out from the letter.

5 It was provisionally decided at the Board that four flies may be added but the Director has not furnished definite data.

6 He has not also referred to the question of the sufficiency of the room raised under his capacity.

7 He was also requested to discuss

Serial No.

the question of water supply with the Sanitary Engineer.

8 The Director may be asked to send a further report on all these points so that the additional capital outlay can be actually correctly ascertained.

DEWAN'S OFFICE
18 NOV. 1936
No. 1463

Final Note by the Second Member of Council.

Subject.—

Installation of extra stills at the Sandalwood Oil Factory at Mysore.

In order to stimulate sales in Northern India, arrangements had been made for the distillation of Mysore Sandalwood at Kanauj. During the years 1933-34, 34-35 and 1935-36, 19,275 lbs./21,783 lbs. and 10,191 lbs., respectively, were distilled there. These arrangements ceased from February 1936 as already reported in Mr. Matthan's Final Note dated 7th September 1935 and at present the entire quantity of oil required for sale in India as well as for export (except to America) has to be manufactured at the Mysore factory. There has been appreciable increase of late in the demand for oil exported from Mysore as may be seen from the following statement:-

Name of centre.	1931-32.	1932-33.	1933-34.	1934-35.	1935-36.	
Europe. ...	33,945	37,283	45,000	49,448	47,841	lb
Japan, ...	30,800	17,100	22,650	19,698	26,197	"
Strait Settlements and F.M.S.	--	--	150	175	436	"
Australia,	50	135	157	233	300	"
China, ...	500	500	299	1,517	874	"
Total...	65,295	55,018	68,256	71,071	75,648	lb

The result is that the factory at Mysore is finding it difficult to meet the demand and the stock has run very low in all centres The situation has been met to some extent by distilling roots and other high grades of sandalwood which give a comparatively large quantity of oil, but this policy cannot be continued for long as the Koties have large stocks of Chiltas and other low oil yielding grades which must be used up.

In these circumstances, the Director, Sandalwood Oil Factory in Mysore, has recommended the installation of four more stills with necessary buildings, etc., the proposals involving a capital expenditure of Rs.36,500.

The question was considered at a meeting of the Sandalwood Oil

Board on 27th October 1936 and it was resolved that a sum of Rs.33,500 might be sanctioned for the purpose. The Dewan and the First Member of Council concur with the recommendations of the Sandalwood Oil Board.

A draft Government Order embodying the decision of the Sandalwood Oil Board is submitted for the gracious approval of His Highness.

MEMBER OF COUNCIL.

Bangalore,
17th November 1936.

Submitted to His Highness.

I submit herewith a Final Note by the SECOND *Member of Council* regarding installation of extra stills at the Sandalwood Oil Factory at Mysore,

DEVELOPMENT SECTION

FROM

S.G. SASTRY ESQ., B.A., M.Sc., F.C.S.,
Director, Sandalwood Oil Factory,
Bangalore.

To

M. VENKATANARANAPPA ESQ., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

Sir,

Subject:- Installation of four more Stills in the Factory to increase the output of oil and other consequential changes.

I have the honour to enclose herewith a note prepared under my instructions by the Senior Chemist in charge of the Factory at Mysore, pointing out the necessity to increase the productive capacity of the Factory by about 24,000 lbs to 25,000 lbs a year. This proposal involves expenditure as follows:-

(1)	Extension of the present Still-room	...	Rs 4,000
(2)	Provision of a new building for the Laboratory	...	Rs 5,500
(3)	Installation of four new Stills	...	Rs24,000
(4)	Library and Research equipment for the laboratory	...	Rs 3,000
	Total ...	...	Rs 36,500

Estimates for Items No.1 and 2 are submitted herewith. Regarding Item No.3 for Rs 24,000/-, the amount is arrived at by taking the cost of Still and Condenser from the Ledger Books of the Factory. Each set will cost Rs 6,000/- bringing the total to Rs 24,000/- for four Stills and Condensers.

Regarding the details for Library and Laboratory equipment for research, a lumpsum amount has been mentioned and details

are being prepared.

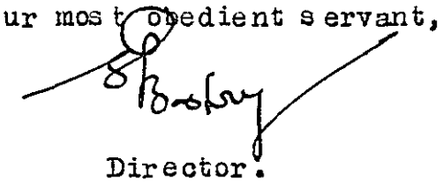
The stocks of oil in different centres happen to be very low and we are having a sort of hand to mouth existence as it were. The Chief Conservator of Forests has been pointing out for over two years that the quantity of a class of raw material called Chiltas has totally occupied the godown space in all the Koties and unless the Factory takes delivery of a substantial portion of this class of wood, the preparation of other varieties of wood will be interferred with.

From all points of view, this work is to be considered as urgent, and I shall be obliged for the early orders of Government.

I have the honour to be,

S i r,

Your most obedient servant,



MG) Director.

N O T E. 31-8-1936.

With a view to improve the present stocks of Sandalwood Oil at different centres and also to cope up with the contingency of improved market conditions and consequent increased demand for oil in the immediate future, I beg to suggest increasing the out put by installing four more stills in the space between the present Still-room and Laboratory buildings, by extending the present Still-room on the Laboratory side. This is necessary as the present equipment which is working to its fullest capacity is found inadequate. I therefore enclose herewith plans and estimates for this extension for Director's kind approval and approaching Government for sanction.

When these additional stills are erected, the Still-room officers will have no place for themselves to sit and also for getting the oil separated and stored till it is taken over by the Laboratory for purification. The present laboratory-room will have to be given over to them. Hence, I have proposed to have a separate building for Laboratory.

The total cost for the above works out to (Rs 4,000 plus Rs 5,400) Rs 9,400/-, as is evidenced by the estimates enclosed. The probable cost of 4 more stills would be about Rs 24,000/- at the rate of Rs 6,000/- a Still. The rate picked out from the Ledger, where the cost of the present set of 19 stills is mentioned as Rs 97,241-13-0.

Sd/- B.S. Iyengar.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Bangalore, Dated, 8th September 1936.

D. O. No. G. D. 1963

Dear Sir,

With reference to your letter No.555 dated 1st September 1936 reporting about the necessity to increase the productive capacity of the Mysore Sandal Oil Factory and soliciting early orders in the matter of addition to the present accommodation and installation of extra stills at the Factory, I am directed to state as follows:-

At the recent meeting of the S.O.Board it was urged by you that all the condensers required renewal. Your letter is silent on this question and if you consider the renewal of the condensers necessary, the cost thereof may be included in the estimate.
No reference was made to the extension of the Still Room at the Meeting. Whether this is absolutely necessary cannot be made out from your letter. It was provisionally decided at the Board's meeting that four stills might be added to the Factory but your letter contains no data in support of this decision. Further, you have not referred to the question of the sufficiency of steam raised and the boiler capacity.

I am accordingly to request you to be so good as to examine the question in greater detail and submit full details on all the points referred to above, so that the additional capital outlay required may be correctly estimated.

I am also to request that the question of water supply may be discussed with the Sanitary Engineer as decided by the Board and the result of discussion reported to Government.

Yours sincerely,

S.G.Sastry, Esq., B.A.,M.Sc., F.C.S.,
Director, Sandalwood Oil Factory,
Bangalore.

DEVELOPMENT BRANCH

Dear Sir,

Refce:- Your D.O. No.D.1963-S.O.F. 18-36-2 dated 11-9-36.

I was directed at the meeting to submit separate proposals on all points raised in your letter. The proposals regarding Condensers and Boilers will be forwarded in a day or two.

The installation of extra Stills is impossible without the extension of the buildings.

I shall meet the Sanitary Engineer and discuss the question of water supply with him and report separately.

Yours sincerely,

S Boofry

M. Venkatanaranappa Esq., B.A.,
